

## **PUBLIC NOTICE**

**PERMIT APPLICATION NUMBER:** NRS # 06.019

**APPLICANT:** Ron Hammontree  
Tellico Reservoir Development Agency  
59 Excellence Way  
Vonore, TN 37885  
865-673-8599

**LOCATION:** The proposed activity is located within the boundaries of the Tellico West Industrial Properties on Tellico Lake in the Island Creek embayment. Monroe County (35.6046°N, 84.2533°W)

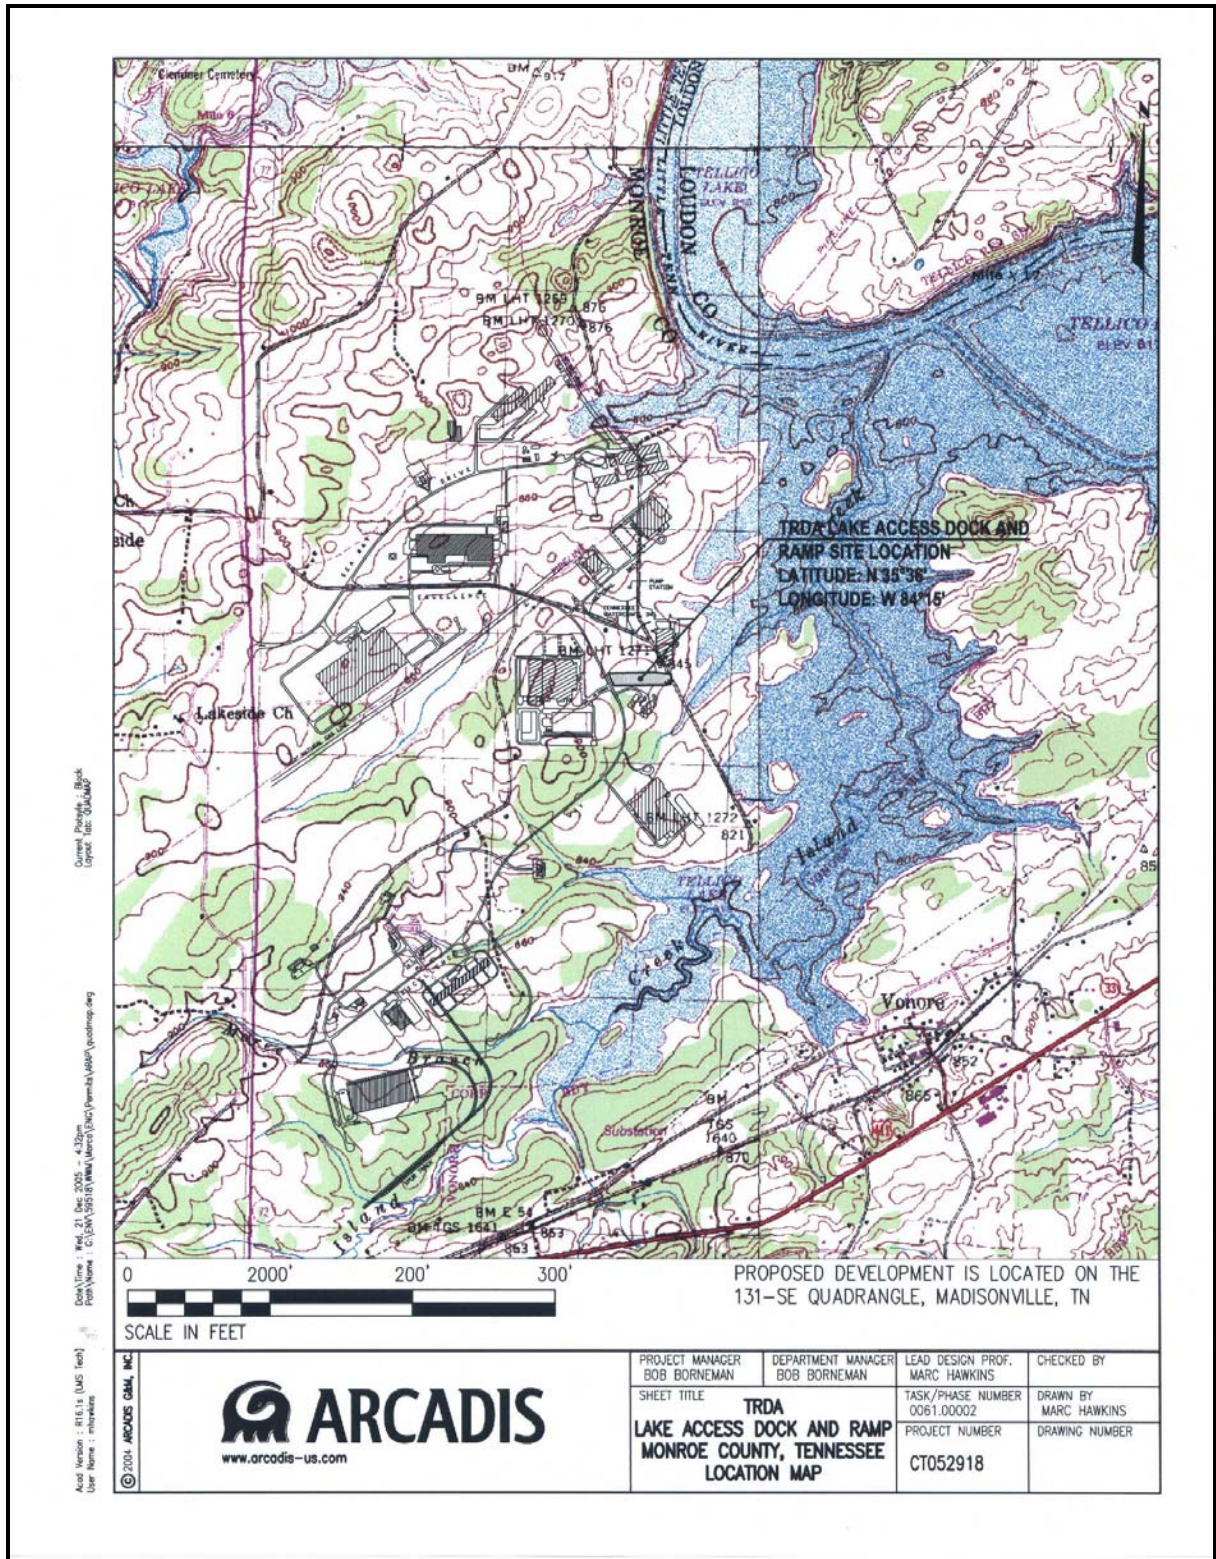

**WATERSHED DESCRIPTION:** The proposed activity is located in the Little Tennessee watershed (HUC 06010204). Tellico Lake has been assessed as not supporting one or more of its classified uses due to contaminated sediments (PCB's). The classified uses of Tellico Lake are fish and aquatic life, recreation, livestock watering and wildlife, and irrigation. The land use in the immediate area is industrial.

**PROJECT DESCRIPTION:** The applicant proposes to construct a lake access facility for industrial companies that design and fabricate a variety of boats. The portions of the lake access facility that involve alterations to surface waters are a concrete ramp for loading/unloading boats, a two-finger concrete apron for loading/unloading boats, shoreline stabilization, and dredging of the embayment. The concrete ramp would be 20 ft. wide and would extend approximately 60 ft. from summer pool elevation into the embayment. The two-finger concrete apron would be approximately 110 ft. long and is 37.46 ft. wide. The concrete apron would be supported by 18-24 in. piers. The shoreline would be excavated at a 3:1 slope and a 2 ft. thick layer of class A-1 rip-rap applied. An earthen key would be excavated at the bottom of the constructed slope. The shoreline stabilization would be 220 ft. long. Approximately 6,000 cubic yards of material would be excavated from the embayment and hauled to an upland confined disposal area.

In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality.

**PERMIT COORDINATOR:** Trent Thomas, STATE OF TENNESSEE, Department of Environment and Conservation Division of Water Pollution Control, 7th Floor, L&C Annex, 401 Church Street, Nashville, Tennessee 37243-1534
